PROFILE

First Class Honours Games Design graduate focused on combat systems, AI behaviour and gameplay in Unreal Engine Blueprints, who can also model and texture in Maya, Blender, ZBrush and Substance Painter. Seeking junior gameplay design, technical design or generalist roles in Bergen or remote.

FEATURED PROJECT

Winds of Valor — Final-year project, Teesside University · Unreal Engine, Blueprints 2025

Modular melee combat framework inspired by *Elden Ring* and *Ghost of Tsushima*.

- **Modular combat:** Actor-Component attack/defence system (light, heavy and charged attacks, block, parry, dodge, lock-on) usable by any UE third-person character via retargeting.
- **Hit registration & stats:** animation-driven hit detection with per-body-part critical hits; Health, Stamina and Stagger stats tuned through data tables.
- **Enemy AI:** perception, state/action slots and a manager that assigns who presses and who flanks; combat-sports-style circling, strafing and charging; weighted-chance attack/defend/dodge decisions; EQS anti-bunching and friendly-fire checks.
- **UI & game feel:** main and pause menus, narrator text bubbles, damage numbers, combo meter, hit stop, VFX and SFX.

LinkedIn post about the project reached 679 reactions. Video: youtube.com/watch?v=_OFNOvtgY2M

OTHER PROJECTS

- **Battlescars** (2022) — Boss fight: animation blueprint, montage-notify hitboxes and perception-based AI with health-based combat branches.
- **Pokehunter** (Noroff group game, 2023) — Built the inventory, abilities and crafting system.
- **Beta Arcade Module** (Teesside University, 2024) — Combat showcase.
- **RehabIsland** (Noroff group project, 2022) — Built the NPCs, AI, items and interactables, and did level design.
- **3D models** — Claptrap, Werewolf, Metal Gear REX.

EDUCATION

BA (Hons) Games Design 2024–2025
Teesside University · First Class Honours

3D Spilldesign (3D Game Design) 2021–2023
Noroff

3D Film 2013–2015
Noroff

EXPERIENCE

Security Guard 2019 – Present
PSS Securitas, Bergen · Shift work demanding responsibility and calm under pressure.

Head Cook Jan 2020 – Oct 2020
La Taqueria (Taqueria A/S) · Led the kitchen.

Restaurant Manager (Daglig leder) Sep 2015 – Feb 2018
La Taqueria (Tacoway A/S) · Ran daily operations, staff and scheduling.

SKILLS

Engine: Unreal Engine 5, Blueprints

Gameplay: gameplay & combat systems; AI (perception, EQS, state machines); UI/menus; animation blueprints & montages

3D: Maya, Blender, ZBrush, Substance Painter

Tools: Git/GitHub, Visual Studio, VS Code

LANGUAGES

Norwegian (native) · English (fluent)
